**W07 Prepare** - Add the Favicon video:

W07 Prepare

• ✓ Tasks

- Using an AI tool ask the following prompts:
  - "How are forms used to gather information from users on the web?"
  - "What problems should I watch for when creating HTML forms?"
  - "How can I style HTML forms with CSS?"
  - "What are the differences between the type, ID, and name?"
  - "What accessibility concerns should I have when making html forms?"
  - "What is a favicon?"
  - "How can I add one to a webpage?"
  - "What are common sizes for favicons?"
  - "What is the difference between a favicon and an 'apple-touch-icon'?"
  - Optional follow up prompts:
    - What problems can arise when...?
    - Can you give me a specific example? (or another example)
    - Are there any other ways to do this?
    - Can you give me more information on...?
- Watch these videos
  - [Forms](#) 📄
  - [Favicons](#) 📄
- You may also want to review the information on 'Forms' at <https://wddbui.github.io/wdd131/slides>
- Be sure to revisit these topics and instructions as you complete your Prove assignment.

What Canvas HTML looks like for that correct link:

```
29         </ul>
30     </li>
31     <li>Watch these videos
32         <ul id="kl_objective_list" style="list-style-
type: disc;">
33             <li><a class="inline_disabled"
title="Link" href="https://wddbyui.github.io/wdd131/videos/forms-
intro.mp4" target="_blank" rel="noopener">Forms</a></li>
34             <li><a class="inline_disabled"
title="Link"
href="https://wddbyui.github.io/wdd131/videos/favicon.mp4"
target="_blank" rel="noopener">Favicons</a></li>
35         </ul>
36     </li>
37     <li>You may also want to review the information
on '<strong>Forms'</strong>&nbsp;at<span>&nbsp;</span><a
class="inline_disabled external"
href="https://wddbyui.github.io/wdd131/slides/" target="_blank"

<span class="external_link_icon" role="presentation"><span>
```

Switch to raw HTML Editor

</> + - ↗ ⋮

**W07 Prove** rename it from 'Credit Card' to 'Event Ticket' (In 3 places: Assignment name, banner title, and in step 1. Complete the ...). The link URL remains the same.

Assignment Name \*

W07 Prove: Event Ticket Form

Edit View Insert Format Tools Table

12pt Paragraph B I U A T<sup>2</sup>   

Week 7 Prove: Event Ticket Form

✓ Tasks

1. Complete the [Event Ticket Form Prove Assignment](#)
2. Submit a URL link to your web page solution for the assignment.

**W07 Prove** will also need a new rubrics:

1.

**Form Structure and Organization**

- The project includes a new directory called "eventform" with an index.html and a stylesheet file
- The form elements are structured in a way that represents the example form

8 pts

2.

**CSS Grid Implementation**

- Card front and card back elements are placed using CSS grid to achieve the layout specified in the mockup

8 pts

3.

**Styling and Layout**

- Basic styling includes rounded corners, and background color
- Proper spacing, alignment, and layout are achieved based on the provided mockup.

8 pts

4.

**HTML Validation**

- The correct form fields are marked as required
- Additional HTML validation attributes are used to enforce specific input lengths or requirements

8 pts

5.

**JavaScript Runs Correctly**

JS validation works such as correct date, error messages, and proper I number or access code

8 pts

**W08 – Prove: Character Card** Rubrics Changes: (Can copy from course 404866)

| 2. <b>Template Functions (Recipe, Tags, Rating)</b> <ul style="list-style-type: none"><li>- Template functions dynamically generate HTML based on recipe details, tags, and ratings.</li></ul> > Rating Scale: 5                     | 10 pts |  |  |  |  |
| 3. <b>Rendering Random Recipe</b> <ul style="list-style-type: none"><li>- Functions to render recipes and initialize the page are implemented correctly, and the random recipe is displayed on page load</li></ul> > Rating Scale: 5 | 10 pts |  |  |  |  |
| 4. <b>Recipe Filtering</b> <ul style="list-style-type: none"><li>- The search functionality is fully implemented, recipes are filtered based on user input, and the filtered list is displayed</li></ul> > Rating Scale: 5           | 10 pts |  |  |  |  |

**W11 Personal Project Plan** (changed from Personal Project Site Plan)

Take out the word 'site' in the assignment name, the banner title, and the link on step 1. The URL link will stay the same.

Assignment Name \*

W11 Personal Project Plan

Edit View Insert Format Tools Table

12pt Paragraph B I U A T<sup>2</sup> | | | | |

## Personal Project Plan

✓ Tasks

1. Complete the [Personal Plan Prove Assignment](#).
2. Submit a link to your repository with your solution for the assignment.

## Personal Project Rubrics (week13)

Criteria Builder

200 Points Possible

1.

The application is hosted on the web

5 pts

2.

Significant textual content, appropriate for your audience, so that they can understand the meaning and message

10 pts

3.

At least one image that relates to the content of the page

10 pts

4.

Laid out and styled according to your plan's wireframe(s)

10 pts

5.

Responsive and Mobile First

10 pts

6.

Visually appealing and easily readable

20 pts

7.

Valid HTML and CSS

10 pts

8.

Score at least 90 on Lighthouse on Performance and 96 on Accessibility.

10 pts

9.

More than one function

20 pts

10.

Include DOM interaction: select an element, modify it, and listen for and react to events

30 pts

11.

Conditional branching

15 pts

12.

Objects and/or Arrays used

25 pts

13.

One of the Array methods used (forEach, map, reduce, filter, etc)

25 pts

Add a multiple-choice final to the course in addition to the final project. The Week 12 '**Final Exam Review**' and Week 13 '**WDD 131 Final Exam**' Use canvas course #404866 for those to copy over.

All points in the course should add up to be 1000.

|                           |     |
|---------------------------|-----|
| 9 Quizzes 10 points each  | 90  |
| 15 Ponders 10 points each | 150 |
| Final Exam                | 100 |
| 10 Proves 40 points each  | 400 |
| Instructor Consult        | 10  |
| Personal Project Plan     | 50  |
| Personal Project          | 200 |

Online would like to link all videos in the Prepares to these links locations instead of YouTube: (This can wait until Fall if needed.)
